## Cockroach Treatment Prep Sheet

### **Treatment:**

One-time treatment which utilizes a combination of a baiting regimen and vacuum extraction.

### **Expectations:**

Treatment results: Due to life cycle and feeding habits, allow 30-45 days for complete control.

### **Warranty:**

6 Month Warranty after 30-45 day control period, provided that sanitation recommendations are followed. If the preparations are not completed the warranty will not be considered valid.

### **Preparation Instructions:**

1. People and pets must vacate for 2 hours.
2. Remove all items from cabinets and drawers in kitchen and bathroom, including under the sink.
3. Remove all items from the kitchen and bathroom countertops, wash with soap and water.
4. Thoroughly wash all cabinets inside and outside, including under the sink with soap and water.
5. Pull out refrigerator and stove and clean behind with soap and water. Wash the walls and sides of refrigerator, and stove with soap and water.
6. Wash ventilation hood above the stove with soap and water.
7. Wash the tops of all cabinets in the kitchen.
8. Sweep and mop the floors in the kitchen and bathroom, paying special attention to the baseboards.
9. All cabinets, drawers and counter tops are to remain clear until after treatment.

**THE ABOVE PREPARATIONS ARE VERY IMPORTANT FOR THE CONTROL OF COCKROACHES. IF NOT COMPLETED PRIOR TO SCHEDULED APPOINTMENT, RESULTING IN DELAYED START TIME, CLIENT WILL BE RESPONSIBLE FOR ANY ADDITIONAL SERVICE CHARGES.**
